

Restaurant Food Ordering System

System Architecture & Development Blueprint | Team “didi”

202490377	I24C	Boburjon Yo'ldoshboyev
202490286	I24C	Erkin Shamuratov
202490199	I24C	Nusratullo Mirzaxo'jayev
202490139	I24C	Yoqrinjon Isayev
202490284	I24D	Kamalatdin Shakirov
202490189	I24C	Ulugbek Matkarimov

Project Execution Timeline & Plan

Structured roadmap ensuring timely delivery across all engineering phases.

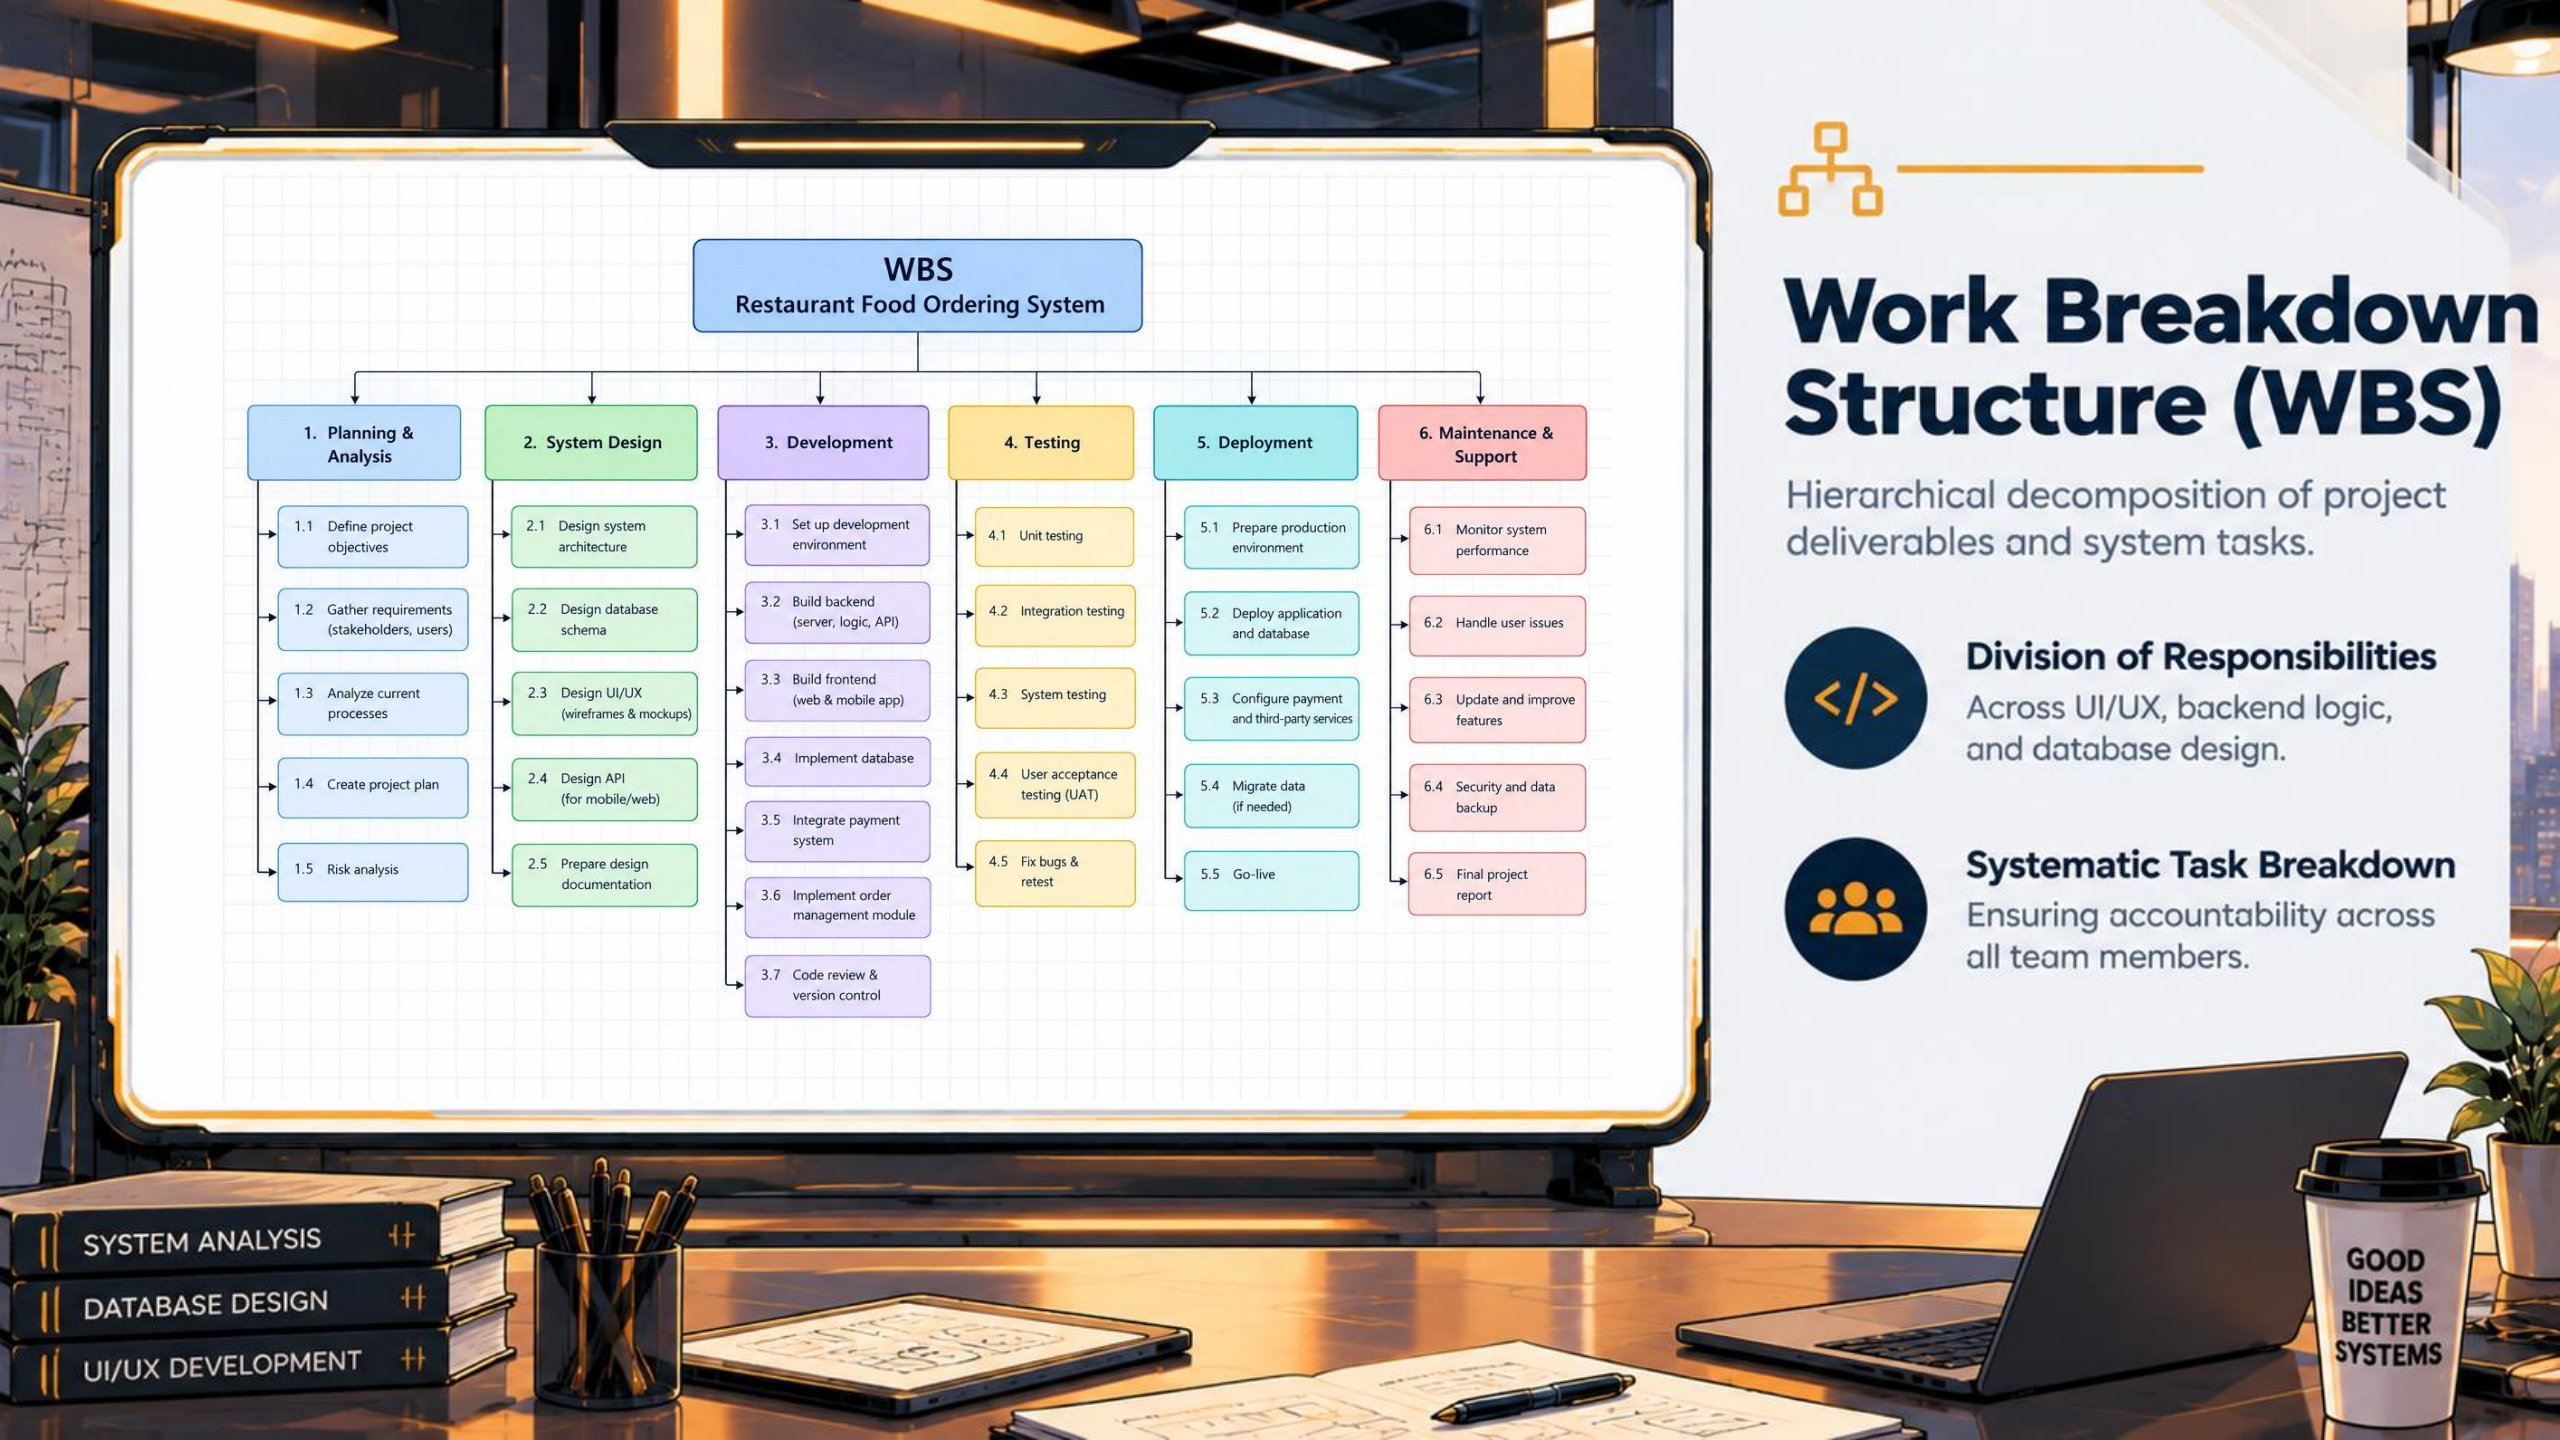

Multi-phase Scheduling

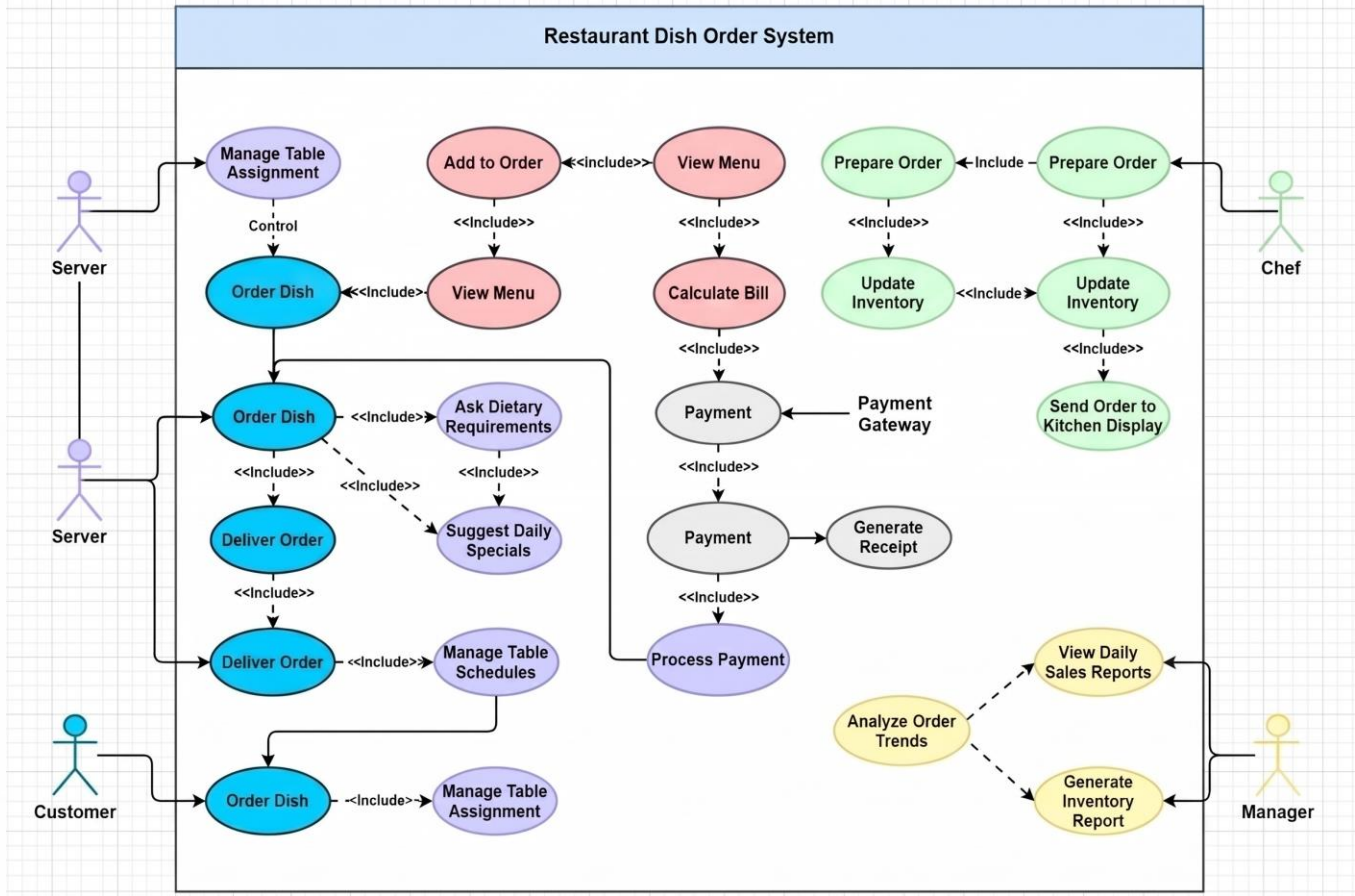

Covering requirements analysis, design, modeling, and testing.

Strategic Resource Allocation

And milestone tracking for Team “didi”.

WBS
Restaurant Food Ordering System
1. Planning & Analysis
1.1 Define project objectives
1.2 Gather requirements (stakeholders, users)
1.3 Analyze current processes
1.4 Create project plan
1.5 Risk analysis
2. System Design
2.1 Design system architecture
2.2 Design database schema
2.3 Design UI/UX (wireframes & mockups)
2.4 Design API (for mobile/web)
2.5 Prepare design documentation
3. Development
3.1 Set up development environment
3.2 Build backend (server, logic, API)
3.3 Build frontend (web & mobile app)
3.4 Implement database
3.5 Integrate payment system
3.6 Implement order management module
3.7 Code review & version control
4. Testing
4.1 Unit testing
4.2 Integration testing
4.3 System testing
4.4 User acceptance testing (UAT)
4.5 Fix bugs & retest
5. Deployment
5.1 Prepare production environment
5.2 Deploy application and database
5.3 Configure payment and third-party services
5.4 Migrate data (if needed)
5.5 Go-live
6. Maintenance & Support
6.1 Monitor system performance
6.2 Handle user issues
6.3 Update and improve features
6.4 Security and data backup
6.5 Final project report
Work Breakdown Structure (WBS)
Hierarchical decomposition of project deliverables and system tasks.
Division of Responsibilities
Across UI/UX, backend logic, and database design.
Systematic Task Breakdown
Ensuring accountability across all team members.
SYSTEM ANALYSIS
DATABASE DESIGN
UI/UX DEVELOPMENT
GOOD IDEAS BETTER SYSTEMS

System Use Case Model

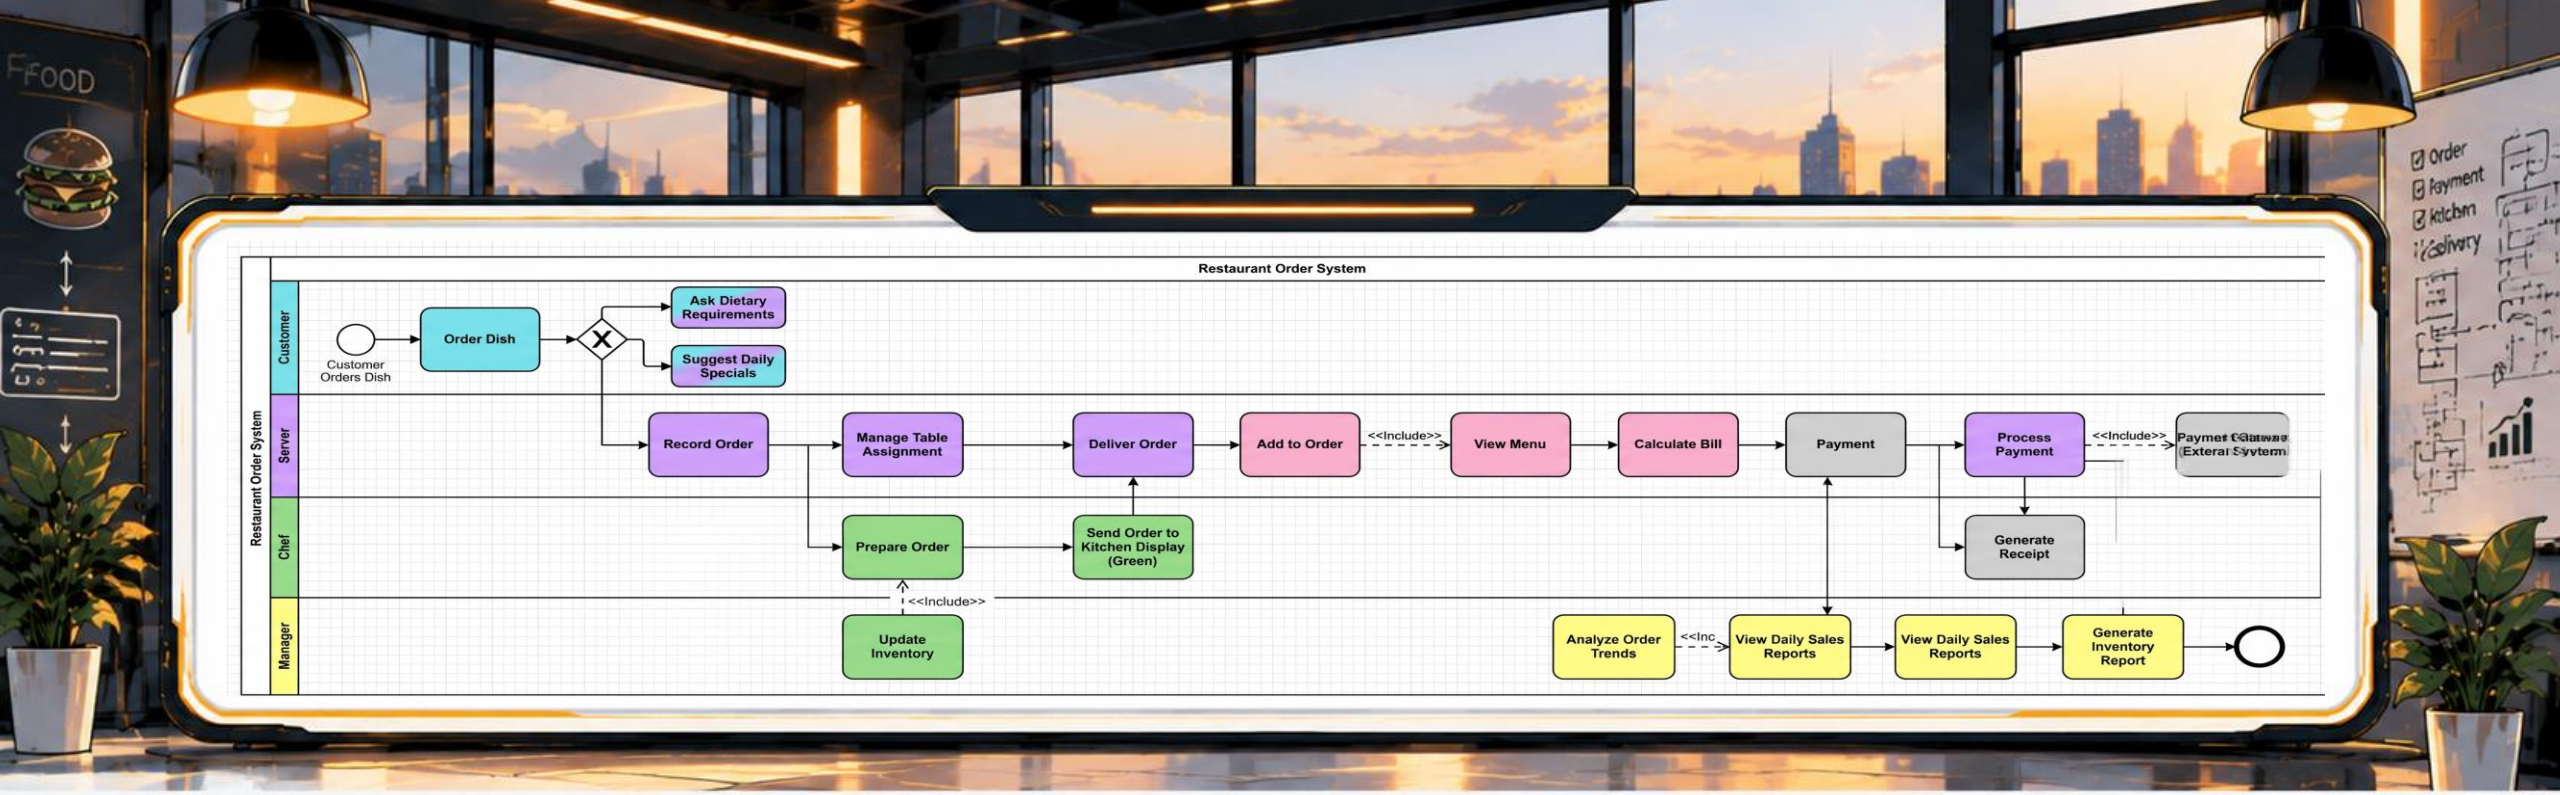

Comprehensive mapping of user interactions and system boundary behaviors.

Key User Roles

Defines roles for Customers, Restaurant Staff, Kitchen Workers, and System Administrators.

Core Workflows

Models core workflows including menu browsing, cart management, payment, and order tracking.

Business Process Flow & Operations

End-to-end operational workflow of food ordering and fulfillment.

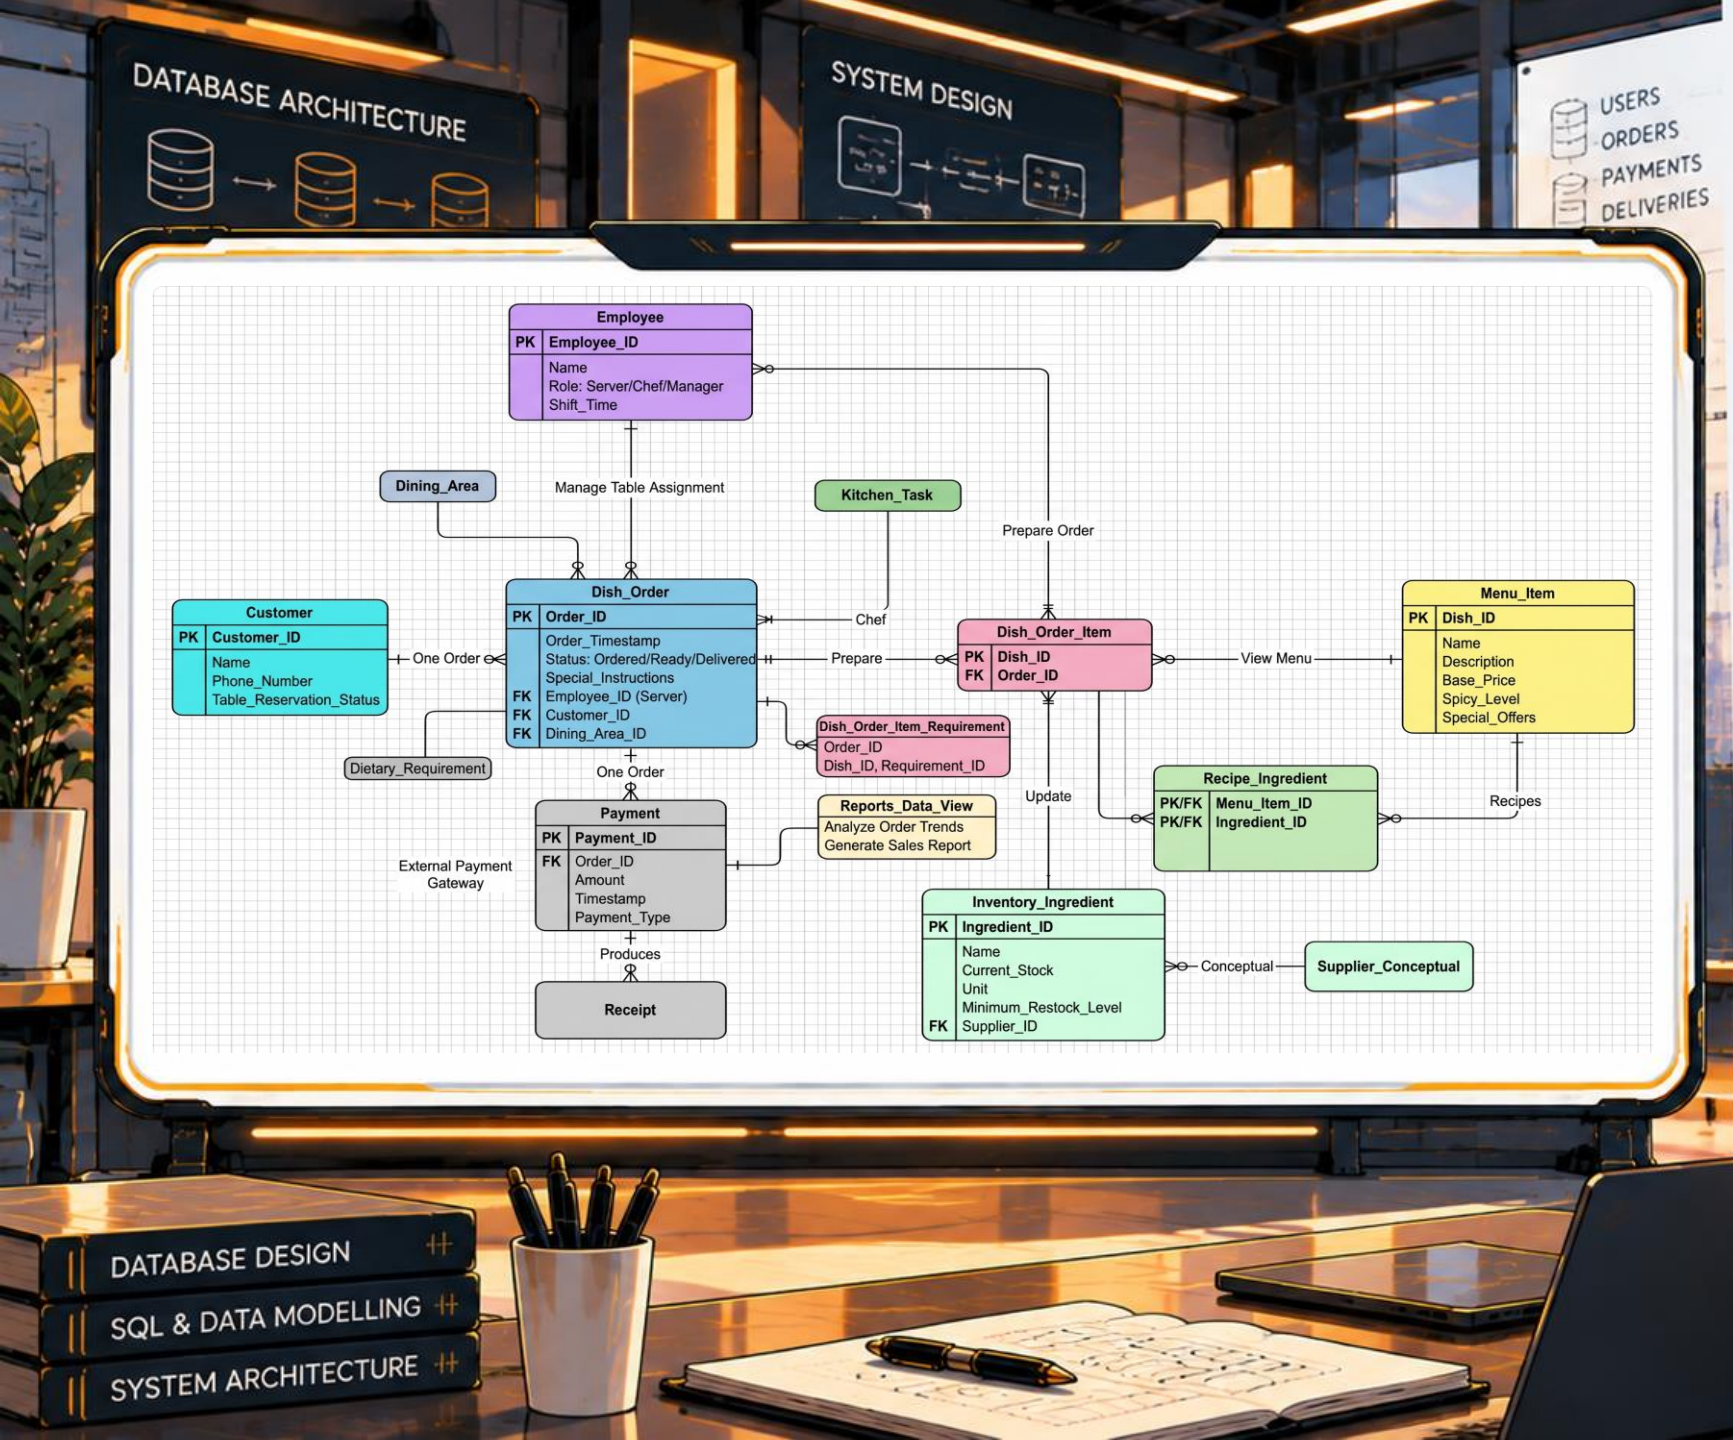

Sequential Workflow

Mapping from initial customer selection to kitchen preparation and dispatch.

Decision Gateways

For payment approval and inventory verification.

Entity Relationship Diagram (ERD)

Relational database schematics powering backend data persistence.

Structured Data Models

For Users, Orders, Menu Items, Payments, and Deliveries.

Primary & Foreign Keys

Ensuring data integrity and fast queries.

TALKPAL.AI: THE REVOLUTION IN AI LANGUAGE LEARNING

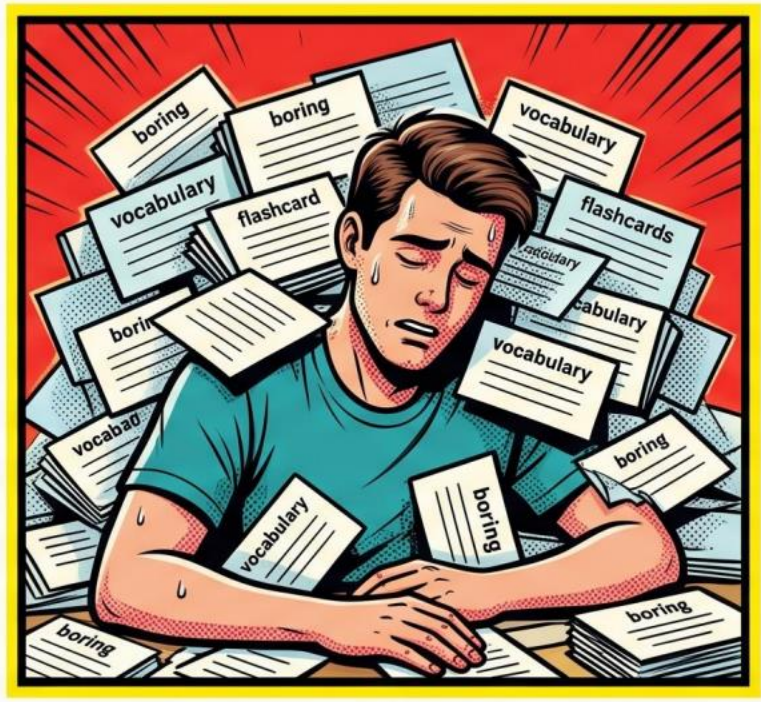

MASTER 130+ LANGUAGES THROUGH NATURAL AI CONVERSATIONS.

- POWERED BY ADVANCED CONVERSATIONAL AI.
- 24/7 PERSONAL SPEAKING COACH IN YOUR POCKET.

THE REAL-WORLD SPEAKING DILEMMA

HUMAN TUTORS ARE EXPENSIVE ($20-$50/HOUR) AND HARD TO SCHEDULE.

TRADITIONAL APPS FOCUS ON ENDLESS FLASHCARDS & DRILLS, IGNORING SPEAKING.

BEGINNERS FACE SEVERE "SPEAKING ANXIETY" WHEN CONVERSING WITH NATIVES.

MEET YOUR NEW AI TUTOR

HYPER-PERSONALIZED: AN AI LANGUAGE COACH THAT ADAPS COMPLETELY TO YOUR SKILL LEVEL AND LEARNING SPEED.

UNLIMITED PRACTICE: INFINITE VOICE AND TEXT CONVERSATION PRACTICE WITHOUT JUDGMENT.

GLOBAL REACH: FULL SUPPORT FOR 130+ LANGUAGES ON WEB, iOS, AND ANDROID.

VERSATILE PRACTICE MODES

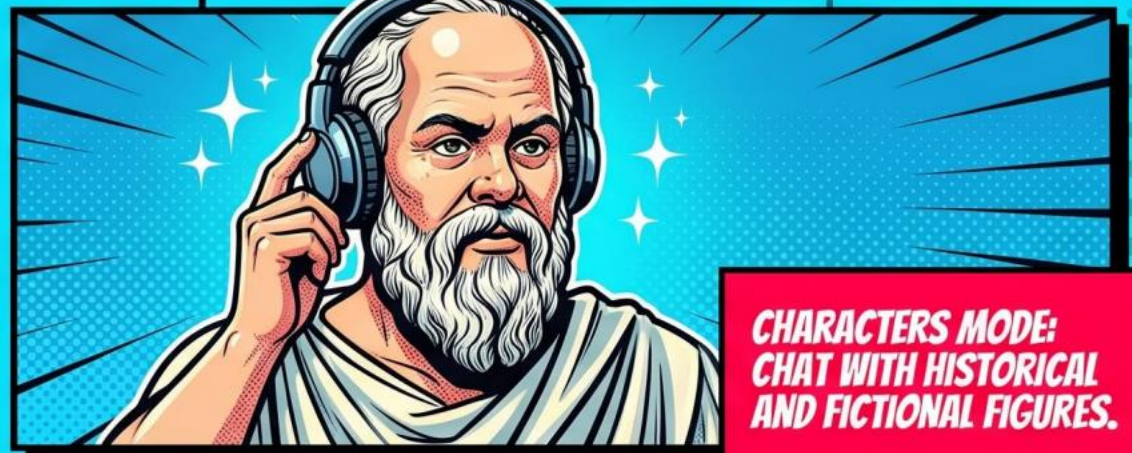

CHAT & CALL MODE: NATURAL VOICE AND AUDIO PRACTICE.

ROLEPLAYS: PRACTICE REAL SCENARIOS—ORDERING FOOD, JOB INTERVIEWS, OR HOTEL CHECK-INS.

DEBATES & CHARACTERS: DEFEND YOUR ARGUMENTS OR CHAT WITH HISTORICAL AND FICTIONAL FIGURES.

CHARACTERS MODE: CHAT WITH HISTORICAL AND FICTIONAL FIGURES.

INSTANT CORRECTION & GRAMMAR INSIGHTS

- REAL-TIME CORRECTIONS: HIGHLIGHTS GRAMMAR, PHRASING, AND VOCABULARY ERRORS INSTANTLY INSTANTLY DURING CONVERSATION.
- SIDE-BY-SIDE COMPARISON: SHOWS WHAT YOU SAID VS. THE IDEAL NATIVE PHRASING.
- 'EXPLAIN' FEATURE: UNPACKS COMPLEX SENTENCES WORD-BY-WORD TO CLARIFY STRUCTURE.

A WORLD OF LANGUAGES AT YOUR FINGERTIPS

130+ LANGUAGES:
FROM SPANISH, FRENCH, AND JAPANESE TO LESSER-KNOWN GLOBAL DIALECTS.

CULTURAL NUANCES:
LEARN SLANG, FORMAL VS. INFORMMAL SPEECH LEVELS, AND LOCAL IDIOMS.

CUSTOM SCENARIOS:
300+ UNIQUE INTERACTIVE EXPERIENCES TAILORED TO TRAVEL, BUSINESS, OR CASUAL LIFE.

LEARN ANYWHERE, ANYTIME

SEAMLESS SYNCHRONIZATION ACROSS WEB, iOS, AND ANDROID MOBILE APPS.

DARK MODE INTERFACE AVAILABLE FOR COMFORTABLE NIGHT SESSIONS.

GRANULAR PROGRESS TRACKERS, DAILY STREAKS, AND SKILL STATS TO KEEP MOTIVATION HIGH.

UNMATCHED VALUE & ACCESSIBILITY

FREE BASIC PLAN:
DAILY PRACTICE LIMIT WITH FUNDAMENTAL CONVERSATIONAL TOOLS.

PREMIUM ACCESS:
UNLIMITED CONVERSATION PRACTICE, ADVANCED VOICE FEATURES, AND ZERO LIMITS.

MASSIVE SAVINGS:
FRACTION OF THE COST OF PRIVATE TUTORS ($6-$15/MO VS. $200+/MO).

Thank You!

Questions & Discussion | Team “didi”

Thank you for your time and attention.

Open for Q&A with the evaluation panel.
